

For session four of *Sprouting Together*, the groups joined in exploring and trying to identify what different gadgets were. Some of these gadgets dated back to the year of 1930. The different items were passed around and each group had to try their best to come up with the correct name and usage for each item. This allowed the children to see how many of the utensils have evolved into what they are today.

**Be sure to tune in next week to go grocery shopping in the 1950s!!**

*Sprouting Together* meets each Monday from 6:00-7:30 p.m. until April 21<sup>st</sup>.
